Expenditure for Paperless Communication

SNCE encourages Paperless communication for exchanging of information, messages, or documents through digital means without the need for physical paper. It encompasses various forms such as Email, Instant Messaging platforms like Whatsapp, Cloud storage, Virtual Meetings in Google Meet, Zoom Meeting etc. Instead of printing, documents are created, edited, shared, and stored digitally using tools like Google Docs, Microsoft Word, or PDFs. Paperless communication is really beneficial for the college as it reduce environmental impact, cost savings on paper and printing, improved efficiency through faster document processing, and easier access to information from anywhere.
